information age

INDEX TO VOLUME 5: 1983

AUTHOR

Barber, D Some thoughts on security and related issues 157
Bing, J Information technology and the professional author 79
Chavda, H Data protection in the computing industry — a survey 211
Deloitte Haskins & Sells and NCC The external auditor as privacy inspector 131
El-Kateeb, A and Al-Khayatt, S Public key cryptosystems 232
Ellis, P Expert systems — a key innovation in professional and managerial problem solving 2
Freed, R The admissibility of computer records in evidence 7
Greguras, F and Daunt, J Exporting computer software under US export regulations 84
Hamidi-Noori, A Microcomputers in industry 222
Horowitz, I New technology, scientific information and democratic choices 67
Kawashima, K and Greguras, F Legal protection of software in Japan 23
Kirby, M D Computer crime and law reform in Australia 241
Kirby, M D Information technology legislation in Australia 172
Kistruck, J R S Information systems — the individual and society 74
Kramer, S Industrial aspects of information technology in Europe 195
Makris, P Informatics in health-care delivery systems 205
Malvik, C Security and the home computer 87
Owen, K Designing for very large-scale complexity 163
Owen, K IFIP's role in information systems design 227
Owen, K IFIP Technical Committee 3: informatics and education 110
Rihaczek, K and Krause, L Data encipherment requirements in the FRG 91
Spiers, J D, Stevenson, G and McKenzie, K I Informatology — transforming data into information 154
Steinmüller, W Information technology and information law 39
Suess, D Security and liability of EFT systems 149
Turn, R Privacy protection in the 1980s 105
Virgo, P Political aspects of information technology 199
Waring, L The security of data communications systems 97
Waring, L P Standby for disaster 32
Wilder, K The DP professional as privacy inspector 143
Wong, K Computer-related fraud 16
Wong, K Computer-related fraud in the UK 238
Wong, K Impact of the UK Data Protection Bill 145
Yurow, J Privacy legislation and the restriction of transborder data flow 11

TITLE

Computer crime and law reform in Australia **Kirby, M D** 241
Computer-related fraud **Wong, K** 16
Computer-related fraud in the UK **Wong, K** 238
Data encipherment requirements in the FRG **Rihaczek, K and Krause, L** 91
Data protection in the computing industry — a survey **Chavda, H** 211
Designing for very large-scale complexity **Owen, K** 163
Expert systems — a key innovation in professional and managerial problem solving **Ellis, P** 2
Exporting computer software under US export regulations **Greguras, F and Daunt, J** 84
Fire, smoke and computers **Waring, L** 167
IFIP's role in information system design **Owen, K** 227
IFIP Technical Committee: informatics and education **Owen, K** 110
Impact of the UK Data Protection Bill **Wong, K** 145
Industrial aspects of information technology in Europe **Kramer, S** 195
Informatics in health-care delivery systems **Makris, P** 205
Information systems — the individual and society **Kistruck, J R S** 74
Information technology and information law **Steinmüller, W** 39
Information technology and the professional author **Bing, J** 79
Information technology legislation in Australia **Kirby, M D** 172
Informatology — transforming data into information **Spiers, J D, Stevenson, G and McKenzie, K I** 154
Legal protection of software in Japan **Kawashima, K and Greguras, F** 23
Microcomputers in industry **Hamidi-Noori, A** 222
New technology, scientific information and democratic choices **Horowitz, I** 67
Political aspects of information technology **Virgo, P** 199
Privacy legislation and the restriction of transborder data flow **Yurow, J** 11
Privacy protection in the 1980s **Turn, R** 105
Public key cryptosystems **El-Kateeb, A and Al-Khayatt, S** 232
Security and liability of EFT systems **Suess, D** 149
Security and the home computer **Malvik, C** 87
Some thoughts on security and related issues **Barber, D** 157
Standby for disaster **Waring, L P** 32
The admissibility of computer records in evidence **Freed, R** 7
The DP professional as privacy inspector **Wilder, K** 143
The external auditor as privacy inspector **Deloitte Haskins & Sells and NCC** 131
The security of data communications systems **Waring, L** 97

SUBJECT

Business

Industrial aspects of information technology in Europe **Kramer, S** 195
Informatics in health-care delivery systems **Makris, P** 205
Information technology and the professional author **Bing, J** 79

Calendar 64, 128, 192, 256

Conferences

Expert systems 82 47

Education

IFIP Technical Committee 3: informatics and education **Owen, K** 110

Electronic funds transfer

Security and liability of EFT systems **Suess, D** 149

Encryption

Data encipherment requirements in the FRG **Rihaczeck, K and Krause, L** 91
Public key cryptosystems **El-Kateeb, A and Al-Khayatt, S** 232

Expert systems

Expert systems — a key innovation in professional and managerial problem solving **Ellis, P** 2
Informatology — transforming data into information **Spiers, J D, Stevenson, G and McKenzie, K I** 154

Information systems

Alarm monitoring system 254
Automatic weather reporting 121
Barcodes keep track of books 62
Broker system 63
Clocking in by computer 254
Digital picture and graphics system 184
Drawing office information system 187
Electronic mail/viewdata systems licensed 187
Electronic news publishing system 123
Electronic office system 253
Electronic yellow pages 123
Financial database provides information on 8 500 companies 120
Financial forecasting system 63
Fingerprint matching by computer 62
French videotex trial grows 186
Graphics-based training system 187
Health-care research network 254
Mainframe/personal computer database link 184
Microfilm/DP system 185
Midland Bank orders new system 255
OCR banking 123
Office management software 252
Optical disc storage 122
Order-processing system 185
Performance management system 185
Personal interface for financial dealers 253
Personnel management system 252
POS system uses handwritten input 123
Private videotex 187
Private viewdata in the 'wired city' 122
Project planning system 186
Software by phone 122
Speaking of software 122
Study foresees increased exports of IT from UK 120
'Talking computer' helps the blind 184
Telemetry for oil company 254
Videotex on trial in Switzerland 121
Water monitoring system 186

Legislation

Computer crime and law reform in Australia **Kirby, M D** 241
Data protection in the computing industry — a survey **Chavda, H** 211
Exporting computer software under US export regulations **Greguras, F and Daunt, J** 84
Impact of the UK Data Protection Bill **Wong, K** 145
Information technology and information law **Steinmüller, W** 39
Information technology legislation in Australia **Kirby, M D** 172
Legal protection of software in Japan **Kawashima, K and Greguras, F** 23
Privacy legislation and the restriction of transborder data flow **Yurow, J** 11
Privacy protection in the 1980s **Turn, R** 105
The admissibility of computer records in evidence **Freed, R** 7
The DP professional as privacy inspector **Wilder, K** 143
The external auditor as privacy inspector 131

Market forecasts

Advertising and the new electronic media 181
Business information markets 56
Computer peripherals for the home infotainment market 59
Consumer electronic banking 117
Database management systems and back-end processors 116
Desktop computers in science 57
Eductional software: the next boost to the microcomputer market 251
Electronic mail and personal computers 250
Electronic payment systems — Japanese developments 115
Electronic publishing 119
Facsimile equipment market 249
Fault-tolerant, fail-safe, high-availability computers 183
Home entertainment in the 1980s 58
Management assessment of user-driven technologies 248
Military electronic memory market in the USA 116
Mini–micro business-oriented turnkey computer systems 58
Office applications software products in Europe 250
Optical character recognition markets 57
Personal computer software market in the USA 248
Personal workstations — the impact of throwaway memory 118
Retail banking information systems market 118
Teleconferencing services and equipment markets 182
The online systems market in branch banking 251
The POS market in Europe 115
The records management market in the US 181

Office technology

Desktop facsimile 190
Desktop financial planning 190
Facsimile for data networks 126
Financial account handling 191
Financial software allows customization without reprogramming 126
Hand-held terminal 127
Office automation study at BT 125
Office systems on trial in Canada 127
Protection against software theft 126
Remote viewdata for the building trade 127
Security by telephone 125
Security system for bank 125
Viewdata editing system 191

Publications

Computer insecurity 255

Regulation

ADA feasibility study 61
Call for world videotex standard 61
Canada and USA agree on TDF 60
Caution over electronic trading 60
Data protection certification 124
DP users survey 189
Electro-optics patents study 61
Expert systems grant 188
International chemical trading 189
Telephone manager 189
Transport office to be automated 189
UK data protection legislation 124
UK invests in information technology 188

Security

Computer-related fraud **Wong, K** 16
Computer-related fraud in the UK **Wong, K** 238
Fire, smoke and computers **Waring, L** 167
Security and the home computer **Malvik, C** 87
Some thoughts on security and related issues **Barber, D** 157
Standby for disaster **Waring, L P** 32
The security of data communications systems **Waring, L** 97

Social issues

Information systems — the individual and society **Kistruck, J R S** 74
New technology, scientific information and democratic choices **Horowitz, I** 67
Political aspects of information technology **Virgo, P** 199

Systems design

Designing for very large-scale complexity **Owen, K** 163
IFIP's role in information systems design **Owen, K** 227
Microcomputers in industry **Hamidi-Noori, A** 222
